April 2, 2015

Summary Sheet

Please direct all questions regarding Utah Department of Transportation's (UDOT) Streamlined Request for Qualifications (RFQ) and the selection process to the UDOT Contract Administrator and all questions concerning the project to the Project Manager contact.

1. **Project Number:** 8384XDB1485
2. **Location:** TOC Control Room Signal Operations Support
3. **ePM PIN No.:** 13670
4. **Requested Services:** Traffic Signal Design
5. **Source(s) of Funding:** State
6. **UDOT Contract Administrator:** Devon Tonks
Contract Administrator
Utah Department of Transportation
Consultant Services
Box 148490
4501 South 2700 West
Salt Lake City, Utah 84129-5998
801/965-4184
dtonks@utah.gov
7. **UDOT Project Management:** Jamie Mackey
Project Manager
Utah Department of Transportation
Traffic Operations Center
2060 South 2760 West
Salt Lake City, Utah 84104
801/887-3489
jamiemackey@utah.gov
8. **Streamlined Statement of Qualifications (SOQ) Deadline:** See the Selection Schedule on Page 4

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

Submit one electronic PDF file of the SOQ (unless directed otherwise in Appendix A *Guidelines for Preparing Streamlined Statement of Qualifications*) to Devon Tonks by email at dtonks@utah.gov prior to 11:00 AM on the submission date found in the Selection Schedule on Page 4. **If SOQs are sent to RFQ Selection Team members there will be a two-point deduction.** You will receive an email acknowledgment of receipt.

SOQs will not be accepted after the 11:00 AM deadline

9. **Qualification Based Selection:** This is a Qualifications Based Selection (QBS) process based on the Brooks Act. Cost is NOT a factor in the ranking of consultants to provide the services described in Appendix C *Scope of Work* on Page 20. Refer to Page 7 for additional information regarding the consultant selection process. The Brooks Act can be found on Page 26.

10. **Type of SOQ Required:** Prepare SOQs in accordance with Appendix A *Guidelines for Preparing Streamlined Statement of Qualifications*, see Page 11.

If there are any changes affecting the RFQ, notice will be sent out via an e-mail through the Consultant Services update service.

11. **Optional Oral Interviews:** Most RFQ selections will be based on the SOQ scores. However, the RFQ Selection Team may determine it is necessary to have interviews in order to make a selection. **Refer to the Selection Schedule on Page 4 for potential interview date.**

12. **Notice to Proceed:** To be issued by Consultant Services after contract execution. Direction to begin work from any other source is invalid and will result in non-payment for services provided without authorized notification to begin work.

13. **Project Completion:** Approximately **12** months from Notice to Proceed.

14. **Forms:** Examples of UDOT Consultant Services forms referred to throughout this RFQ are available on the UDOT Web site www.udot.utah.gov/go/csforms.

15. **Updates to the UDOT RFQ Boilerplate:** Please note changes in this RFQ in regards to Conflict of Interest, Appendix A *Guidelines for Preparing Streamlined Statement of Qualifications*, Appendix B *Proposed Key Personnel to Be Used on UDOT Project* requirements. Read and review each section carefully to ensure proposals meet the requirements.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

Acceptance and Completion Criteria

Overview:

UDOT Consultant Services staff facilitates RFQ Selection Teams through the ranking and selection of consultants to provide engineering services for transportation related projects. Consultant selection is a Qualification-based Selection (QBS) process, where the primary factor in selection is the qualification-based criteria outlined by the RFQ Selection Team in Appendix A *Guidelines for Preparing Streamlined Statement of Qualifications* rather than the cost of engineering services. Cost is a secondary factor after a Consultant is selected and the negotiation process begins.

The RFQ Selection Team will review and evaluate submitted SOQs. SOQs are ranked for qualifications, based on pre-determined criteria. If the RFQ Selection Team determines Consultant Selection Interviews are needed in order to determine final ranking, then interviews will be included in the process. Final ranking will be determined by the average of the RFQ Selection Team members' scores from SOQs and Consultant Selection Interviews, if necessary (see Selecting by Consent on Page 18).

UDOT follows federal regulations in selecting consultants for engineering services, based on the Brooks Act (40 U.S.C. 11) found on Page 26. Cost is **NOT** a factor in the selection ranking of a Consultant to provide services. All price/cost related items which include, but are not limited to direct salaries / wage rates, indirect cost rates, and other direct costs are prohibited from being used in SOQs. Cost control measures should not be quantified in dollar amounts, but rather in how the process improves the project.

DO NOT include any reference to Consultant costs in the SOQ. Any SOQ submitted with ANY discussion of cost (other than cost control measures) **WILL BE DISQUALIFIED.**

Project Dates:

Consultants are required to meet the dates set for the **optional** oral interviews and negotiation meetings. Consultants are also advised to meet other dates outlined in the Selection Schedule on Page 4. If a consultant fails to meet these dates the consultant will be considered non-responsive.

Required Percentage of Work for Prime Consultant:

The Consultant must perform work valued at not less than **50%** of the total work, excluding specialized services, with its own staff. Specialized services are those services or items that are not usually furnished by a Consultant performing the particular type of service requested in Appendix C *Scope of Work*.

Required Completion and Acceptance Criteria:

Progress payments will be made for work in progress. Final invoice payment, shall be made after all of the work has been completed and the final estimate, project records, and documentation have been received and accepted by UDOT as accurate and complete.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

Applicable Federal and State Regulations:

The Consultant shall conform to all applicable state and federal regulations.

Debarment Certification:

Federal regulations require certification by prospective participants (including contractors, subcontractors, and principals) as to current history regarding debarment, eligibility, indictments, convictions, or civil judgments. The selected Consultant will be required to certify in accordance with contract Standard Terms and Conditions.

Authorization to Begin Work:

Notice to proceed will be given by Consultant Services as soon as the contract is approved and signed by all parties and returned to Consultant Services.

Required Key Personnel Qualification:

The Consultant shall be responsible to ensure all personnel proposed under this RFQ are qualified through training, experience, and appropriate certification for the tasks assigned and shall have a working knowledge of UDOT standard practices.

Prime Consultants cannot propose employees who are employed by another Consultant firm. **If such employees are listed in two SOQs, both Consultants' SOQs will be disqualified and will not be evaluated by the UDOT Selection Team.** This requirement applies to the use of individual employees and not to sub-consultant firms/employees. Sub-consultant firms/employees may be included on more than one proposing team, however individuals may only interview with one team.

The Consultant is expected to complete the form Appendix B *Proposed Key Personnel to Be Used on UDOT Project*. Completed forms in SOQs should state the certification and education levels of the individuals proposed for use on this contract including sub-consultants' personnel. **The completed form must be included in the SOQ but will not count as one of the allowed pages.**

UDOT's requirement for listing current or former UDOT employees as key personnel in SOQs is as follows:

- If a firm lists a former UDOT employee on the SOQ who officially left UDOT employment prior to the submission date of the SOQ, the firm will not be disqualified.
- If the firm lists someone who has not yet left UDOT employment, even if the employee plans to retire or quit soon, **the firm will be disqualified.**
- In addition, if a firm lists a UDOT employee who was involved in the development of the RFQ for this project, whether they are a current employee of UDOT or not, **the firm will be disqualified.**
- These requirements apply to prime and sub-consultants.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

Required Availability of Key Personnel:

When Consultants list personnel on Appendix B *Proposed Key Personnel to be Used on UDOT Project* Form, the Consultant is agreeing to make the personnel available to complete work on the contract at whatever level the project requires.

Required Streamlined SOQ Contents:

The SOQ from the Consultant should contain the information identified in Appendix A *Guidelines for Preparing Streamlined Statement of Qualifications*.

Streamlined SOQ Evaluation Procedures:

The RFQ Selection Team will evaluate the SOQ in accordance with the criteria described in Appendix A *Guidelines for Preparing Streamlined Statement of Qualifications*.

Conditions of Proposal:

All costs related to the preparation of the SOQ and any related activities such as interviews are the sole responsibility of the Consultant. UDOT assumes no liability for any costs incurred by Consultants throughout the entire selection process.

Disposition of Streamlined SOQs:

SOQs and their content become the property of UDOT and are treated as protected documents and are disposed of according to UDOT policies. UDOT reserves the right to reject all SOQs. The SOQ of the successful Consultant shall be open to public inspection for a period of one year after award of the contract. SOQs of Consultants who are not awarded contracts shall not be open to public inspection and will be destroyed once the contract is executed with another consultant.

If the Consultant selected for award has required in writing the nondisclosure of trade secrets and other proprietary data so identified, the Consultant Services Manager shall examine the request in the SOQ to determine its validity prior to award of the contract. If the parties do not agree as to the disclosure of data in the contract, the Consultant Services Manager shall inform the Consultant in writing what portion of the SOQ will be disclosed and that, unless the Consultant withdraws the SOQ, it will be disclosed. If the Consultant withdraws their SOQ, the Consultant will not be awarded the contract.

Ownership of Documents:

All tracings, plans, manuscripts, specifications, data, maps, etc. prepared or obtained by the Consultant as a result of working on this contract, shall be delivered to and become the property of UDOT.

Financial Screening:

UDOT requires consultants to be Financially Screened prior to performing work for UDOT. The selected Consultant has two weeks after selection to complete the financial screening process. **Consultants are required to have an independent audit by a CPA firm for this RFQ. Inability to complete the financial screening process will disqualify the Consultant's SOQ, unless the delay is due to problems or delays by UDOT.**

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

The time it takes a Consultant to complete the Financial Screening process varies and therefore UDOT encourages Consultants to submit their *Financial Screening Application* as soon as possible.

Consultants may obtain the *Financial Screening Application* from the UDOT Web site www.udot.utah.gov/go/csforms. For questions, contact the Consultant Services Financial Screener at 801/965-4138. A Consultant's Financial Screening status is effective for the period of one year from the time the Consultant is approved.

Audits:

Prior to final contract award, an audit may be conducted by UDOT of the selected Consultant. This audit will be for the purpose of ensuring the selected firm is financially capable of performing the contract, the cost information and prices quoted are reasonable, and the selected Consultant has adequate accounting practices to ensure accurate tracking of contract costs. UDOT reserves the right to inspect Consultant records associated with this project, including financial records, as deemed necessary during the term of the contract.

Prior to final acceptance of the contract work, UDOT may conduct a closing audit of the Consultant. This closeout audit will be performed upon completion of the contract to verify the accuracy of all billings and compliance with the contract provisions.

In the event that a proposing Consultant has failed to pay UDOT monies due to UDOT for over payment on past projects, UDOT has the right to reject and/or disqualify the firm's SOQ. Disqualification will be based on audit findings, determinations, and recommendations made by the UDOT Fiscal Audit Division.

Insurance Certificates:

The Consultant is required to provide UDOT with Certificates of Insurance meeting the current guidelines. Current insurance requirements can be found within the Consultant Services Manual of Instructions from the UDOT website www.udot.utah.gov/go/csmanuals.

Health Reform – Health Insurance Coverage in State Contracts Requirements:

As required by UCA 72-6-107.5, effective July 1, 2009, UDOT will not enter into a contract of \$1,500,000 or more with a prime Consultant or \$750,000 or more with a sub-consultant without demonstration of compliance regarding the offering of "Qualified Health Insurance Coverage" to their employees. Prior to issuing a Notice to Proceed, the Consultant must demonstrate compliance with the provisions of Administrative Rule R-916-5. A Consultant's inability to adequately demonstrate compliance may be grounds for determining an SOQ non-responsive and UDOT moving on to negotiate with the new first-ranked responsive firm.

Subscription to the UDOT Consultant Services Update Service:

UDOT recommends Consultants interested in proposing an SOQ subscribe to the UDOT Consultant Services Update Service on the UDOT Web site www.udot.utah.gov/go/subscriptionlist.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

If there are any changes affecting the RFQ, notice will be sent out via an e-mail through the update service.

Consultant and/or Corporate Logos or Branding:

Consultant and/or corporate logos or branding identification may no longer be displayed in **public** documents or products produced for UDOT beginning July 1, 2005. It is UDOT's intent that consultants should place identifying information, in text format, in appropriate places in documents. **This requirement does not apply to SOQs.** For specific questions or further guidance, please contact Gaye Hettrick, Consultant Services Manager, 801/965-4639 or ghettrick@utah.gov.

Consultants and/or corporations are specifically restricted from placing logos or branding on the following items:

- Plan Sheets or Title Blocks
- Environmental Documents
- Standard UDOT Forms
- Project Websites
- Cover Pages
- Headers/Footers; and
- Information and Display Boards for Public Meetings

Consultants are encouraged to place their company logos or brandings in their SOQs.

Right to Cancel:

UDOT reserves the right to cancel the RFQ at any time when it is in UDOT's best interest. UDOT also reserves the right to accept or reject any and all SOQs submitted in response to the RFQ.

Conflict of Interest:

UDOT expects consultants to act with integrity and professional ethics. When there is a potential conflict of interest, consultants are required to either not submit for the project or disclose the potential conflict to the Consultant Services Manager prior to submitting a proposal. The Consultant Services Manager will coordinate with the UDOT Conflict of Interest Review Team for a determination by UDOT. For additional information, please reference the UDOT Consultant Services Manual of Instruction (MOI). Download the MOI from www.udot.utah.gov/go/csmanuals.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

Appendix A

Guidelines for Preparing Streamlined Statement of Qualifications

Introduction:

These guidelines were developed to standardize the preparation of an SOQ by Consultants for engineering services on a UDOT project. Submitting an SOQ is the beginning of the selection process and is used as the basis for selecting or for short-listing Consultants. If the RFQ Selection Team determines interviews are necessary prior to selection, a minimum of at least two Consultants will be short-listed and invited to an interview by the RFQ Selection Team.

The purpose for these guidelines is to ensure consistency in format and content in the SOQ prepared by Consultants and submitted to UDOT. Preparing an SOQ instead of a detailed proposal reduces the time requirements for consultants and simplifies the review process for the RFQ Selection Team.

Electronic Submission:

UDOT's goal is to migrate to electronic processes wherever possible. Consultant Services intends to require all SOQ submission to be received solely by electronic means.

Streamlined SOQ Sections:

The SOQ should contain the following sections in the order listed:

First PDF

1. Cover Page
2. Project Team
3. Capability of the Consultant
4. Approach to the Project
5. Appendix B *Proposed Key Personnel to be Used on UDOT Project*

Streamlined SOQ Evaluation Criteria:

SOQ evaluation criteria are listed below in red.

1. **Cover Page**

The Cover Page is one page. It must be on the Prime Consultant's letterhead and consist of the following with no additional information:

Title	

The information is not required to be in this exact format, as long as each item of requested information is presented, **with no additional information.** **SOQs will be**

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

considered non-responsive and will be disqualified if the Cover Page is not attached to the SOQ; if the Acknowledgement is not included on the Cover Page; and/or if there is additional information included on the Cover Page.

No evaluation points are assigned to this section and the Cover Page will not count as one of the allowed pages.

2. **Project Team** – The RFQ Selection Team will evaluate how well the qualifications and experience of the proposed project team members relate to the specific project. The RFQ Selection Team recommends the following information be provided.
- Project team flow charts including sub-consultants (see sample *Project Organization and Related Experience Chart* available on the UDOT Web site www.udot.utah.gov/go/csforms).
 - Describe the qualifications, experience, and availability of key personnel on your proposed project team. Correlate the qualifications and past experience with the Project Goals. (NOTE: Do not include percentages of availability as this may be misinterpreted as a reference to cost.)

A maximum of 55 points is available for this section.

3. **Capability of the Consultant** – The RFQ Selection Team will evaluate the Consultant's capability to perform the work.
- Describe your firm's capability to perform the work.
 - Describe any unique qualifications your firm has to perform this type of work.
 - Describe your firm's internal quality and cost control procedures.
 - Describe your firm's experience with the specific type of work identified in Appendix C *Scope of Work*
 - Provide an analysis of the project team firms' current workload
 - Describe the overall performance record of the proposed project team firms.

A maximum of 35 points is available for this section.

4. **Approach to the Project** – The RFQ Selection Team will evaluate how well you have planned a basic course of action, what alternatives and/or preliminary approaches are proposed, and what provisions are identified for dealing with potential impacts.
- Describe the course of action proposed to meet the Project Goals and Scope of Work identified in Appendix C *Scope of Work*. Be realistic, clear and concise.
 - Identify potential impacts, impediments, conflicts or potential mitigation.

A maximum of 10 points is available for this section.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

5. **Appendix B Proposed Key Personnel to be Used on UDOT Project** – The Consultant is expected to complete the Appendix B *Proposed Key Personnel to be Used on UDOT Project* (see example in this RFQ). Firms are not required to use this example form, as long as all necessary information is included in a form presented in the SOQ. The form must state the certification and education levels of the individuals proposed for use on this contract, including sub-consultants' personnel.

When Consultants list personnel on Appendix B *Proposed Key Personnel to be Used on UDOT Project* form, the Consultant is agreeing to make the personnel available to complete the services in the contract at whatever level the project requires.

The completed form must be included in the SOQ, but will not count as one of the allowed pages. No other information is allowed on these pages. No evaluation points are assigned to this section.

Streamlined SOQ Format Requirements:

It is very important SOQs be clear, concise, and in the recommended format so they may be evaluated in an objective manner by the RFQ Selection Team.

A maximum total of 100 points is available for the SOQ.

One-point penalty deductions:

1. **8½ x 11 Size Pages Only** – If there are exceptions to this requirement, they are addressed below in the list of Disqualifications.
2. **One-inch (1") Margins** – Exceptions: Consultant Name/Logo and Page Headers/Footers may be within margin.
3. **Font and Spacing Requirement** – The body of the SOQ is required to be written with a 10-point [or greater] standard Arial or Times New Roman font, including the Cover Page, Project Experience Table and Appendix B *Proposed Key Personnel to be Used on UDOT Project*. Exceptions will be made for section headings, paragraph headings, graphics, headers and footers. Excepted text may be any other font and size as long as the text is reasonable and can be easily read by reviewers without the need of magnification in order to understand what is being presented. The minimum line spacing is 12-point.
4. **Charts, Graphs, and Pictures** – Optional and counted as page(s). If the graphic is a duplicate from another source, it must be referenced. Charts, graphs, headings, and headers/footers are excepted from the font requirements, see font requirement above.
5. **Page Headers/Footers are required** – May be within the one-inch margins; and must include Project Number, Project Location/Description, and Current Date.
6. **Related Experience Chart and Project Organization Chart are required** – Sample charts are available on the UDOT web site www.udot.utah.gov/go/csforms.
7. **Appendix B Proposed Key Personnel to be Used on UDOT Project** – The completed form is required and will not count towards the page maximum.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

A one-point penalty will be assessed by Consultant Services for each applicable violation of the above format requirements for a maximum seven-point penalty per SOQ.

Two-point penalty deductions:

- 8. Send SOQs to the Contract Administrator** – Send SOQs to the Contract Administrator. Do not send SOQs directly or indirectly to any known or presumed RFQ Selection Team members or other UDOT personnel, see instructions on Page 2.
- 9. PDF Submission** – SOQs are required to be submitted in PDF files. Unless specifically addressed in the RFQ, only one PDF will be accepted.

A two-point penalty will be assessed by Consultant Services for each application violation of the above requirement(s) for a maximum six-point penalty per SOQ.

Disqualifications:

- 10. Late Submission** – Any SOQ received by Consultant Services after the 11:00 AM deadline. Refer to Page 2 for more information.
- 11. Electronic (email) Submission** – Any SOQ not received in the appropriate PDF format via email (containing all of the sections in the order presented in Streamlined SOQ Sections on Page 12) to Devon Tonks at dtonks@utah.gov.
- 12. Cost Discussion** – Any SOQ received with any reference to costs. Cost discussions are not allowed (other than cost control measures). Cost control measures should not be quantified in dollar amounts, but rather in how the process improved the project. Refer to Page 7 for further details.
- 13. Cover Page** – Any SOQ received without a Cover Page; without the Acknowledgement on the Cover Page; and/or with additional information. No additional back page is allowed. Refer to Page 13 for further details.
- 14. Use of employees employed by another consultant** – Any SOQ received using employees currently employed by another consultant or presented as staff on two SOQs for the same advertisement. (This does not apply to a sub-consultant firm competing on one or more project teams.) Refer to Required Key Personnel Qualification on Page 8 for more information.
- 15. Use of UDOT staff** – Any SOQ received with current or former UDOT employees as part of the proposed Project Team who were involved in the development of the RFQ. Refer to Required Key Personnel Qualification on Page 8 for more information.
- 16. Financial Screening** – Any SOQ received from Consultants who are unable to complete the UDOT Financial Screening process within two weeks of selection. Refer to Financial Screening discussion on Page 9 for further details.

Field Cod

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

17. **Four (4) Page Maximum** – Any SOQ received with more than the maximum allowed pages. The Cover Page and Appendix B *Proposed Key Personnel to be Used on UDOT Project* do not count towards the page maximum.

A page is defined as a single-sided 8.5" x 11" sized page that contains text, pictures, tables, graphs, charts, plan sheets, or any other graphics.

Do not include a reference or link to additional information. If SOQs contain references or links, UDOT Consultant Services will assume additional pages are used.

18. **Other** – UDOT reserves the right to disqualify an SOQ when the intent of the RFQ process is violated.

Any SOQs committing violations to the above format requirements will be considered non-responsive and will be disqualified by Consultant Services.

Streamlined RFQ Selection Team:

The RFQ Selection Team members will receive copies of each responsive SOQ submitted. They will review and score the SOQs individually based on the evaluation criteria and submit their scores and comments to the Contract Administrator. The Contract Administrator will tally and compile the scores and comments.

The RFQ Selection Team will then meet to discuss the SOQs and comments from individual RFQ Selection Team members and determine whether interviews are necessary or whether the selection may be made based on the averaged scores from the SOQs. Final SOQ score results are the average of voting RFQ Selection Team members' scores.

Most Streamlined RFQ selections will be based on the SOQ scores. However, if the RFQ Selection Team determines it is necessary to have interviews in order to make a selection, the Selection Team will develop the format of the interviews in the RFQ Selection Team Meeting by completing the *Consultant Selection - Interview Format Worksheet* found on the web site www.udot.utah.gov/go/csforms.

Selection Interviews:

The Streamlined RFQ is intended to reduce the level of effort required to compete for and administrate the selection process. Interviews are anticipated to take place rarely (i.e. in the event the first place ranking is a tied score of two or more firms, or other extenuating circumstances).

If the RFQ Selection Team determines interviews are necessary, examples of project-specific topics may include such issues for discussion as:

- Understanding of the Work
- Approach to the Project
- Schedule Control
- Management of Project

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

“Selecting by Consent” Process:

The final selection process during interviews will be performed using the “Selecting by Consent” (SBC) process developed by the Consultant Selection Interview Process Quality Improvement Team officially implemented August 12, 2004.

The SBC process is a scoring process that aids the RFQ Selection Team in developing final ranking through a collaborative process. In this process each segment and question of the interview is weighted in advance during the RFQ Selection Team Meeting. After the interviews are conducted, the RFQ Selection Team scores each segment and question by “consent”. Consent is defined as the willingness of all RFQ Selection Team members to accept a decision reached by a collaborative process. The final ranking is based on the final scores developed by the RFQ Selection Team using the *Consultant Selection - Interview Scores Example* found on the UDOT web site www.udot.utah.gov/go/csforms. See the form for more information regarding this process.

Consultant Debriefing:

UDOT has a consultant debriefing process. As part of the SOQ evaluation, RFQ Selection Teams may provide constructive criticism of the SOQs submitted for this project. Debriefing information will be distributed after the execution of the contract resulting from this selection.

Debriefing information consists of scores of the first-ranked firm’s proposal/interview and the scores, strengths and weaknesses of the consultant’s own proposal/interview.

The strengths identified in the highest-ranked firm’s proposal/interview will be available for review in-person at the Consultant Services division, along with the selected firm’s proposal, after the contract has been executed.

Consultants are offered the opportunity to meet with the Contract Administrator for a formal debriefing after distribution of the above information.

Summary:

The SOQ should be clear, concise, and it should provide the RFQ Selection Team members with an understanding of the proposed Consultant Team’s ability to undertake and complete the proposed project successfully in a thorough, efficient and timely manner.

Proposed Key Personnel to Be Used On UDOT Project

Name	Firm Name	Proposed Role on Project	Certification Category/Level	Utah License/ Certification No.	Other State License/ Certification No.	Education Level

- Include all personnel proposed to work on this UDOT project, including sub-consultants. Add additional pages if needed.
- If the Project Team has a change in key personnel during the selection or negotiation process, the Consultant is required to submit notification in writing immediately to the UDOT Project Manager and the Consultant Services Administrator. If the Project Team has a change in **any** personnel after Notice to Proceed on a contract, the Consultant is required to immediately request a modification to the contract or a CMS Alternative Staff transaction. If UDOT does not approve the change, UDOT may request a revision to the proposal, revisit the selection process, score the Consultant lower on the Consultant Project Evaluation, or terminate the contract.
- The Form and an example of the completed form are available on the UDOT Website www.udot.utah.gov/go/csforms.

PROJECT GOALS

- Provide qualified and adaptable staff to perform reactive, preventative, and proactive maintenance of UDOT's Traffic Signal System.
- Support UDOT's Strategic Goals and world-class signals initiative.

SCOPE OF WORK

SUMMARY

The scope of this work plan is to contract with a transportation consulting firm to provide traffic signal operations support for the Utah Department of Transportation located at the UDOT Traffic Operations Center in Salt Lake City, Utah. The consultant will staff the operations desk at the UDOT Traffic Operations Center in Salt Lake City, Utah for approximately 50 hours a week. Various duties may be performed, such as operations of the centralized traffic management system, ramp metering system, adaptive control systems, and automated traffic signal performance measures, as well as other tasks as defined in this work plan.

The one-year contract (with option to extend an additional four years) will be unit price. The consulting firm will keep track of a cost build up and number of hours worked for each task and each coordination project in this contract.

The employees working at the Signal Operations Desk should have a solid understanding of traffic signal operations, vehicle detectors, NEMA phasing, signal maintenance and signal coordination. Any non-professional engineer employees working at the Signal Operations Desk must work under the direction of a Professional Engineer licensed in the State of Utah.

The support provided will be in the following general categories:

- Operation & monitoring of centralized traffic management systems, ramp meters, and adaptive signal control systems
- System usage statistics tracking
- Traffic signal performance measures
- Complaint and work order tracking and resolution
- Minor configuration changes to signal software
- Hardware and communications troubleshooting
- Signal timing plan development

UTAH DEPARTMENT OF TRANSPORTATION

Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

Signal Operations Desk Regular Duties

- A. Operation & Monitoring of centralized traffic management systems, ramp meters, adaptive control.
 - 1. Monitor CCTV and run manual timing plans or make other timing changes to respond to incidents, special events, weather, and construction. Using traffic signal modeling software, develop and implement new signal timing plans.
 - 2. Enable manual timing plans for special events and planned construction. Notify operators and traffic engineers of changes made and/or manual timing plans available for use if the event or construction happens during hours when no one is stationed at the Signal Timing Desk in the TOC control room.
 - 3. Verify that Central Traffic Signal System Action Set patterns are available in the local controllers. If not available, create and/or install them under the direction of the UDOT Signal Operations Engineer and the UDOT Freeway Operations Engineer.
 - 4. Check the Central Traffic Signal System for UDOT signals running free. Track signals that are supposed to run free. Investigate the reason the controller is running free and work with the Signal Systems team to restore coordination.
 - 5. Develop timing plans for weekend and/or “after hours” construction as needed and notify control room operators of plans.
 - 6. Train control room operators one-on-one during the off-peak hours on a systematic schedule in regards to the Central Traffic Signal System. Help the operators become proficient in the use of the system in terms of recalls, setting intersections free, and running manual assignments for special events and incidents and checking for proper operations of signals. Coordinate with the UDOT Control Room Manager.
 - 7. Prepare the Central Traffic Signal System Communication Status Report for the Technical Subcommittee meeting held quarterly. Attend the meeting and present the information.
 - 8. Maintain transfer of knowledge necessary for a large signal system with many operators through a daily email and thorough documentation of issues and solutions.
- B. System Usage Statistics Tracking
 - 1. Track and report on Central Traffic Signal System usage statistics, including action sets run, downloads, and other timing changes.
 - 2. Log use of UDOT Signal Performance Metrics through the SPM site.
- C. Traffic Signal Performance Measures

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

1. Assist with the preparation / implementation of Measures of Effectiveness (MOEs). This may include:
 - a. Analyzing travel time studies
 - b. Implementing automatic MOEs, interpreting their output, and making changes based on these MOEs.
 - c. Intersection turning movement volume counts / comparisons using the CCTV cameras
 - d. Troubleshooting issues flagged through UDOT Signal Performance Measures.
 - e. Maintaining UDOT's Automated Signal Performance Measures system.
- D. Complaint and Work Order Tracking and Resolution
 1. Take public calls and generate work orders using the UDOT work order system.
 2. Respond to complaints through UDOT Click N Fix. Track complaints through the work order system and close when the issue is resolved.
- E. Minor configuration changes to Central Traffic Signal System, adaptive control and TransSuite
 1. Update Central Traffic Signal System graphics and place new graphics on the servers for distribution.
- F. Hardware and communications troubleshooting
 1. Check and track communications status of devices connected to any of the Central Traffic Signal Systems. Follow procedures provided by UDOT Project Manager to correct communications that fail. This will include working with UDOT, DTS, and partner agency staff.
 2. Troubleshoot detection devices.
- G. Signal timing plan development
 1. Develop signal timing plans as directed by the UDOT Project Manager. These timing plans may include: daily TOD plans; incident management plans; holiday plans; late night plans; special event plans; snow / inclement weather plans; construction plans; or other plans.

Work Schedule

- A. Work will be performed under this contract from July 1, 2015 to June 30, 2016. Four additional one year contract modifications may be issued based on consultant performance, funding and need.

Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

B. The Consultant will staff the Signal Operations Desk during these hours:

1. Monday thru Friday 9:00 AM to 7:00 PM
 - a. An unpaid lunch break of at least 30 minutes will be expected.
2. Late nights and weekend support may be required for special event or construction support. The UDOT Project Manager will provide advance notice when such support is required. Work location may be at a traffic operations center or in the field.

Policy Guidelines

- A. The selected consultant and any of their staff assigned to this contract shall adhere to the UDOT policies and guidelines. These shall include, but not be limited to the following:
1. Conform to all relevant State of Utah personnel policies related to use of State buildings; use of State computer equipment; use of State office equipment; access to confidential State records; substance abuse; safety regulations; sexual and racial harassment.
 2. Conform to policies applicable to all employees of the TOC including access to the building and building security; building cleanliness; control room dress code policies; parking; and use of closed-circuit television images.
 3. Conform to all UDOT guidelines and policies relating to the timing and coordination of traffic signals.

Work Quality

The consultant shall perform training and skills assessment for staff assigned to this project. Overall performance will be evaluated together with the Project Manager on a quarterly basis to compare the performance measures established at the beginning of the contract.

Additional Information

QC/QA Plan Requirements:

- The Consultant will prepare, distribute, and implement the Quality Control/Quality Assurance Plan for the project. UDOT has adopted QC/QA standards and the Consultant must meet or exceed these requirements. The Standard for Design is available on the UDOT Web site www.udot.utah.gov/go/qcqa
- Document Control: All documents will be maintained in both an electronic and hard copy form. Each document will have a uniquely specific location in both electronic and hard copy formats.

UDOT Reference Items:

- UDOT CADD use and information is available on-line from the UDOT web site at www.udot.utah.gov/go/ETS.

UTAH DEPARTMENT OF TRANSPORTATION
Streamlined Request for Qualifications
Project No. 8384XDN1485 & TOC Control Room Signal Operations Support

The Brooks Act of 1972:
Federal Government Selection of Architects and Engineers

United States Code (U.S.C.) Title 40 - Public Buildings, Property and Works

Chapter 11, Section 1101 - 1104: Selection of Architects and Engineers

§ 1101. Policy (Formerly 40 U.S.C. § 541)

The policy [of the Federal Government] is to publicly announce all requirements for architectural and engineering services and to negotiate contracts for architectural and engineering services on the basis of demonstrated competence and qualification for the type of professional services required and at fair and reasonable prices.

§ 1102. Definitions (Formerly 40 U.S.C. § 542)

In this chapter, the following definitions apply:

1. **Agency head.**- - The term "agency head" means the head of a department, agency, or bureau [of the Federal Government].
2. **Architectural and engineering services.**- - The term "architectural and engineering services" means- -
 - A. professional services of an architectural or engineering nature, as defined by state law, if applicable, that are required to be performed or approved by a person licensed, registered, or certified to provide the services described in this paragraph;
 - B. professional services of an architectural or engineering nature performed by contract that are associated with research, planning, development, design, construction, alteration, or repair of real property; and
 - C. other professional services of an architectural or engineering nature, or incidental services, which members of the architectural and engineering professions (and individuals in their employ) may logically or justifiably perform, including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.
3. **Firm.**- - The term "firm" means an individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the profession of architecture or engineering.

§ 1103. Selection procedure (Formerly 40 U.S.C. § 543)

- a. **In general.**- - These procedures apply to the procurement of architectural and engineering services by an agency head.
- b. **Annual statements.**- - The agency head shall encourage firms to submit annually a statement of qualifications and performance data.
- c. **Evaluation.**- - For each proposed project, the agency head shall evaluate current statements of qualifications and performance data on file with the agency, together with statements submitted by other firms regarding the proposed project. The agency head shall conduct discussions with at least 3 firms to consider anticipated concepts and compare alternative methods for furnishing services.
- d. **Selection.**- - From the firms with which discussions have been conducted, the agency head shall select, in order of preference, at least 3 firms that the agency head considers most highly qualified to provide the services required. Selection shall be based on criteria established and published by the agency head.

§ 1104. Negotiation of contract (Formerly 40 U.S.C. § 544)

- a. **In general.**- - The agency head shall negotiate a contract for architectural and engineering services at compensation which the agency head determines is fair and reasonable to the Federal Government. In determining fair and reasonable compensation, the agency head shall consider the scope, complexity, professional nature, and estimated value of the services to be rendered.
- b. **Order of negotiation.**- - The agency head shall attempt to negotiate a contract, as provided in subsection (a), with the most highly qualified firm selected under [section 1103](#) of this title. If the agency head is unable to negotiate a satisfactory contract with the firm, the agency head shall formally terminate negotiations and then undertake negotiations with the next most qualified of the selected firms, continuing the process until an agreement is reached. If the agency head is unable to negotiate a satisfactory contract with any of the selected firms, the agency head shall select additional firms in order of their competence and qualification and continue negotiations in accordance with this section until an agreement is reached.
